Our Vision

The Frank Meisler brand evokes the radiance of powerful and brilliant detailed quality art.

Playful and Humorous

We inhabit the world with the animal kingdom. Like us our animal sculptures are ferocious, funny or pretentious.

— Frank Meisler —

Kynetic Surprises

The multi part sculptures are kinetic, configured to allow for movement and surprise. The parts move, doors open, hips rotate, tails turn and and details swivel.

— *Frank Meisler* —

Made to order

We specialize in custom designed sculptures for interior or exterior spaces.

— *Frank Meister* —

Trophies and Awards

We design Special Commissions made to order as presentation gifts to companies or institutions. Sculptures have been presented as gifts to celebrities, dignitaries and heads of states around the world.

— *Frank Meister* —

One of a Kind

We specialize in custom designed portrait sculptures of actual people, depicting not only their likeness but their work activities, hobbies, general interests and essence, all with a degree of humor.

— *Frank Meister* —

Business and Pleasure

The professions and hobbies we practice shape our lives and alter us. Our sculptures depict women and men, working, playing sports, and sometimes combining the two.

Frank Meisler

Craftsmanship

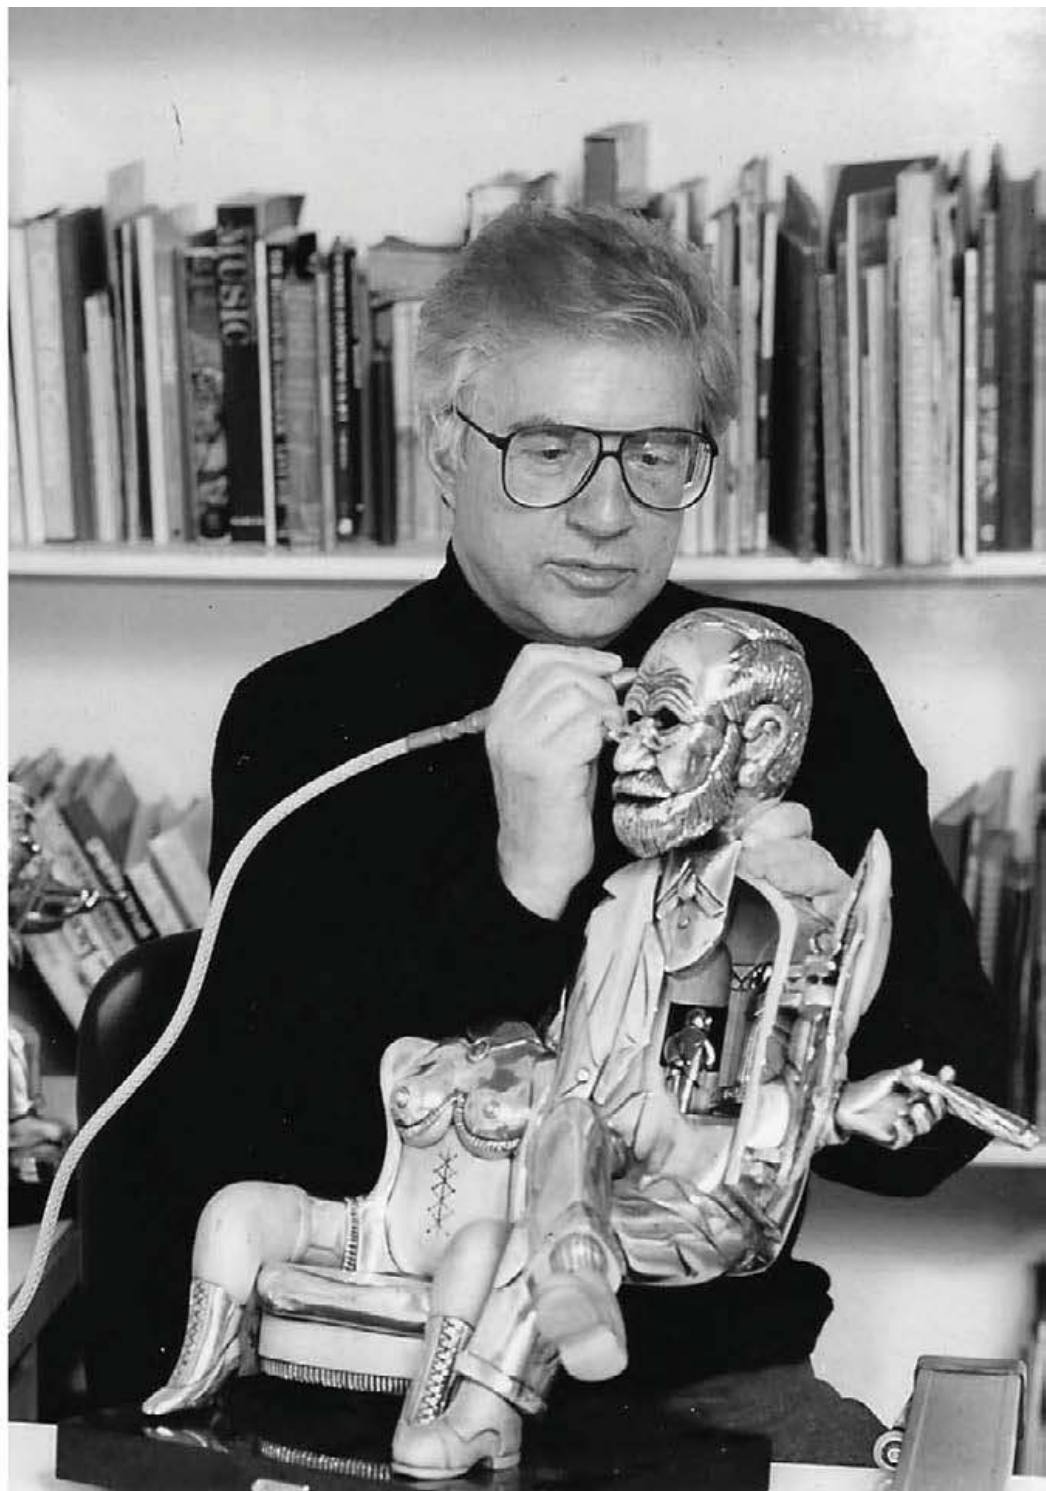

From rough metal casts to shiny detailed art, all our sculptures undergo a comprehensive creative process providing the utmost attention to detail and quality.
